173. Length of TELEGRAPH LINE and WIRE, respectively, open in each year from 1851-52 to 1882-83, in the DIVISIONS shewn in AGGREGATE in ACCOUNT No. 172 ... ... 276 to 279

174. NUMBER and VALUE of MESSAGES in each DIVISION, in each year from 1876-77 to 1882-83 ... 280 to 283

175. DITTO DITTO in all DIVISIONS, in each month, in each year from 1876-77 to 1882-83 ... ... 282 to 284

176. NUMBER and VALUE of MESSAGES appertaining to PROVINCIAL LINES in each month from the opening of the Lines 285

177 to 177*b*. TOTAL NUMBER of STATE and PRIVATE MESSAGES in each DIVISION of the TELEGRAPH DEPARTMENT, in each month in each year from 1867-68 to 1882-83 ... ... 285 to 299

MONEY ORDER—

178. RECEIPTS, CHARGES, NUMBER, and AMOUNT of MONEY ORDERS ISSUED and PAID, and Number of MONEY ORDER OFFICES open, in each year from 1862-63 to 1882-83 ... ... 300 & 301

179. NUMBER and AMOUNT of MONEY ORDERS ISSUED and PAID, and AMOUNT of COMMISSION RECEIVED in each PRESIDENCY and PROVINCE, in each year from 1866-67 to the 3rd quarter of 1879-80, and in each POSTAL CIRCLE, from the 4th quarter of 1879-80 to 1882-83 ... ... 301 to 306

180. NUMBER and AMOUNT of MONEY ORDERS ISSUED and PAID, and AMOUNT of COMMISSION RECEIVED in each CIRCLE in the BENGAL PRESIDENCY, in each year from 1866-67 to the third quarter of 1879-80 ... ... 306 to 308

181. NUMBER of MONEY ORDER OFFICES open, and the AVERAGE AMOUNT of MONEY ORDERS ISSUED in each PRESIDENCY and PROVINCE, in each year from 1871-72 to the 3rd quarter of 1879-80, and in each POSTAL CIRCLE, from the 4th quarter of 1879-80 to 1882-83 ... ... 308 to 311

182. AMOUNT of MONEY ORDERS ISSUED by each PRESIDENCY and CIRCLE on OFFICES within its own RANGE, and ON OTHER PRESIDENCIES and CIRCLES, collectively, in each year from 1866-66 to 3rd quarter of the year 1879-80 ... ... 313 to 317

REGISTERED DEBT—

183. REGISTERED DEBT in ENGLAND and in INDIA at the close of each year from 1811-12 to 1882-83, also the ANNUAL AMOUNT of INTEREST payable thereon ... ... 318 to 321

184. REGISTERED DEBT in ENGLAND and INDIA, the NET AMOUNTS borrowed and paid off, the ADJUSTED CASH BALANCES on the last day of each year, and the ULTIMATE RESULTS from 1811-12 to 1882-83 ... ... 322 & 323

185. COMPARATIVE DETAILED STATEMENT of INCREASE and DECREASE of REGISTERED DEBT in ENGLAND and in INDIA, together with a STATEMENT of CASH BALANCES on the last day of each year from 1812-13 to 1882-83 ... ... 324 to 327

MISCELLANEOUS STATISTICS—*concluded.*

REGISTERED DEBT—*continued.*

No. of Account.		Pages.
186.	Registered Debt and other Loans and Liabilities bearing Interest in India, from 1811-12 to 1882-83	328 & 329
187.	Proportion of the Registered Debt of India as held by Europeans and Natives, computed on the basis of the Interest paid on each Loan at all the Treasuries throughout India, during the half-year ending 31st December 1883	330 & 331
188.	Amount of Interest due on Public Debt of India in each month of the year 1882-83 ...	332
189.	Particulars of Loans raised in England, and Outstanding on the 31st March 1883 ...	*ib.*
190.	Amount of each Loan held in India and London on 31st March 1883	333

HOME DRAWINGS—

191.	Amount of Bills drawn by the Home Authorities on Calcutta, Madras, and Bombay, with the drawing rates; of the Payments of Railway Capital into the Home Treasury, less withdrawals in England; and of the Loans raised in England, in each year from 1834-35 to 1882-83	334 & 335
192.	Highest and Lowest Rates of Exchange on Bills drawn by the Secretary of State for India on Bengal, Madras, and Bombay, in each month of each of the years from 1870-71 to 1882-83	336 & 337
193.	Amount of Bills drawn on each Presidency by the Home Government, and the Average Rate of Exchange on ditto, from ditto to ditto	338 & 339
194.	Ditto on India, and the average Rate of Exchange on ditto, from ditto to ditto ...	340 & 341
195.	Amount of Home Bills paid at the three Presidencies, from 1854-55 to 1882-83, and the Loss or Gain by Exchange during that period	*ib.*
196.	Total Amounts of Home Bills paid in India, from ditto to ditto	*ib.*

WAYS AND MEANS OF THE HOME GOVERNMENT—

197.	Disbursements in England, and the Mode in which those Disbursements were provided for, in each year from 1834-35 to 1882-83	342 & 343

INTEREST PAYABLE IN LONDON—

198.	Amount of Promissory Notes of all Loans enfaced for Payment of Interest in London and Outstanding on the London Register at the end of each month in each year from 1864 to 1883; also the Rate of Exchange on London during the same period	344 & 345
199.	Guaranteed Interest issued in England to the East Indian Railway Company (Main Line) from the commencement to 31st December 1879	346 to 350
200.	Ditto ditto ditto (Jubbulpore Line), ditto to ditto	351

PRICES—

201.	Selling Price of Government Securities at Calcutta in each month from 1834-35 to 1883-84	352 to 358
202.	Price of Silver in London and its Relative Value to Gold, also Price of English Gold (in Bars) in India and its Relative Value to Silver, from 1862 to 1883	359 to 363
203.	Monthly Return of Exchange and Discount on London, Rates of Interest and Discount, Price of Sovereigns and of Gold in India, Price of Silver in London, and the Drawings of the Home Government, from January 1861 to December 1883	364 to 370
204.	(1) Exchange Tables—Rupees and Sterling	371 to 373
	(2) Table for the Conversion of Annas and Pie into Cents	373
205.	Exchange Table shewing the Equivalent in £ Sterling of 1 to 50 Lakhs of Rupees; also the Equivalent in Rupees of £100, 1,000, 10,000, 100,000 and 1,000,000, at rates of Exchange ascending by $\frac{1}{32}$ of a Penny from 1*s.* 7*d.* to 1*s.* 7$\frac{31}{32}$*d*	374 to 377
206.	Monthly Average mean Quotations of Government Securities held in London from 1864 to 1883	378 to 381

BANKS—

207.	Transactions of the three Presidency Savings Banks, and the Allowance paid for their management, from 1864-65 to 1882-83	382
208.	Transactions of the District Savings Banks in the Bengal Presidency, from 1870-71 to 1882-83	*ib.*
209.	Number and Amount of Dividends declared at the Bank of Bengal, Amount of Dividends received by Government, Amount per Share, and the Market Price of each Share, from 1809 to 1883	383 & 384

AREA AND POPULATION—

210.	Area, Population, and Land Revenue of British India, in Totals for each Presidency and Province; also the number of Divisions and Districts in each Presidency and Province	385
211.	Area, Population, and Land Revenue in detail of Divisions in each Presidency and Province, shewing also the number of Districts and of Sub-Divisions in each Division ...	385 to 387
212.	Area, Population, and Land Revenue in detail of Districts in each Presidency and Province, shewing also the number of Sub-Divisions in each District	387 to 392

PART III.

MISCELLANEOUS STATISTICS.

STATISTICS RELATING TO THE ADMINISTRATION OF REVENUE IN INDIA.

SALT.

REVENUES AND CHARGES FROM 1843-44.

BRITISH INDIA.

The different systems under which the Salt Revenue of British India is collected are described under the respective Presidencies and Provinces. The subjoined table brings together the total consumption of Salt in those territorial divisions. The corresponding table of the amount of duty collected will be found in Accounts Nos. 18, 25, and 32 in Supplement to Part I of Financial and Miscellaneous Statistics. The rates of duty in the several Presidencies and Provinces are shown in Table No. 27.

BENGAL (LOWER PROVINCES).

Tax levied on salt under the Mahomedan Government.

Under the Mahomedan rule a tax was levied on the salt consumed by the people of Bengal by means of imposts on the privilege of manufacture, and duties on the transportation of salt from the places of manufacture to the interior of the country.

Commencement of the East India Company's monopoly.

A monopoly for the manufacture and sale of salt was first established in Bengal by Lord Clive in 1765, the chief object being to provide fitting emoluments from the profits for the principal persons concerned in the Government, and thus to prevent their mixing in the intrigues and questionable transactions by which Civil Servants and others in those days often amassed enormous fortunes.

Half the monopoly profits were to be distributed among the officers of Government, and the other half it was proposed to credit to the Company.

In his Minute of the 3rd September 1766, Lord Clive assumed that this share would yield, "according to the present state of the salt trade, from 12 to 13 lakhs of rupees annually."

The rate fixed for deliveries was Rs. 2 per maund.

The existence of this monopoly was of but short duration, as the Court of Directors wholly disapproved of the arrangements.

At the same time, however, the Court stated that they did not object to the levying of the ancient duties on salt, which had always constituted part of the revenues of Bengal.

In the year 1772 the manufacture and wholesale trade of salt was farmed out by Government to private individuals; but this complicated farming system was never very productive and soon failed.

Establishment of the Company's salt agencies.

In 1780 Mr. Hastings introduced a system for the manufacture and sale of salt under the agency of the Company's Civil Servants. In accordance with this system, the Molunghees received advances from the agents at the beginning of the season, on the stipulation that they delivered their salt to the Government when made at a certain price, and the agents afterwards stored the salt and sold it to wholesale dealers at a price fixed from year to year by the Government.

The difference between the price agreed upon with the Molunghees and the price at which it was delivered from store to the merchants was thus in effect the duty levied upon the salt.

In 1788 sales of salt by public auction, instead of at fixed rates to the dealers, was introduced by Lord Cornwallis. The revenue immediately rose, but the system was eventually abolished by the Court of Directors in 1837, as it was found to lead to the establishment of sub-monopolies, injurious to the interests of both the people and the Government.

Introduction of a fixed duty system.

In their despatch of the 4th January 1837, the Court of Directors ordered that the price to be thenceforward paid by the purchasers of salt should be determined by the cost price of manufacture, added to a fixed rate of duty.

BENGAL (LOWER PROVINCES) —*continued.*

The rates of duty since fixed from time to time have varied from a maximum of Rs. 3-4 to a minimum of Rs. 2 per maund; but the system for the manufacture and supply of salt, as introduced by Mr. Hastings in 1780, continued in force, with but few modifications, until the year 1862, when the several salt agencies were gradually abolished, leaving the supply of salt, either by importation or excise manufacture, to private enterprise. The several salt agencies were situated in the province of Orissa and in the districts of Chittagong, 24-Pergunnahs, Jessore and Midnapore.

Exception in the rule as regards the fixed duty.

The full rate of duty on salt was not, however, levied uniformly throughout Bengal until 1862. From the year 1810 a system of retail sales at reduced prices from shops established on the part of Government was introduced in districts and localities where salt was manufactured, or was capable of being easily produced; the object being, as stated at the time, to leave the people residing in such tracts without excuse for violating the law under the temptation of a high rate of duty, and to obtain some revenue in a part of the country where, from the great facilities for smuggling, it had been found impracticable to realise full prices.

From inquiries held during the years 1860 and 1861, the Government concluded that the loss of revenue entailed by the remission of a large proportion of the duty on the salt consumed within the saliferous tracts was, under existing circumstances, far larger than would arise were the full duty levied.

The system of retail sales at reduced prices was therefore abolished from the year 1862.

Preventive arrangements for the protection of the revenue.

From the commencement of the salt monopoly, a preventive establishment was employed for the protection of the revenue. This establishment was for the most part separate from, and independent of, the agency constituted for the manufacture and supply of salt, and was employed in Northern Behar to prevent the influx of lighter taxed salt from the westward, and also within certain defined limits which included the saliferous tracts on the sea-board of Lower Bengal.

By Regulation X of 1819 the general control of this preventive department was vested in the Board of Customs, Salt and Opium, established in that year.

On the passing of Act XIV of 1843, imposing an additional duty of one rupee per maund on salt passing from the North-Western Provinces to the eastward of Allahabad, the establishment in Behar was withdrawn. The one rupee was in June 1847 reduced to 12 annas, and in April 1849 to 8 annas. In March 1861 the additional duty was abolished.

In Lower Bengal the limits within which the preventive force were entertained have been narrowed from time to time so as to concentrate their operations on the salt-producing tracts only.

A further check.

As a further check against illicit manufacture within these limits, all salt under transport was required to be conveyed by certain specified routes and pass stations, and to be covered by protective documents, under penalty of confiscation.

Merchants and dealers were also required to record all sales and losses from their stocks on the reverse of their protective documents.

The law and rules on this subject have been modified from time to time. Those now in force are contained in Act VII of 1864 and the Government Notification issued under that Act.

In 1863 the special preventive establishment was abolished, and all duties previously discharged by them were delegated to the regular Police Force. In addition to the sea-board and salt-producing tracts, the Police have also to guard the frontiers of Arrakan to prevent the ingress of the lighter taxed salt from those districts.

Commencement and progress of excise manufacture.

In 1835-36 the excise manufacture of salt was first commenced by private individuals, but the continuance of the system was subsequently negatived by the Court of Directors in 1840.

In 1847 the manufacture of salt under certain excise rules was again permitted, but for many years the quantity produced was very small.

During the past few years excise manufacture has been carried on to a considerable extent in Orissa, the quantities made being more than sufficient for the supply of that province; and since 1867-68 it has been re-commenced, though on a small scale, in the district of the 24-Pergunnahs.

Importations of salt by sea.

Foreign salt was first imported into Bengal in the year 1818-19. No large importations, however, occurred until the year 1835-36.

At first, and until the fixed duty system was adopted, Customs dues were levied at such rates as were considered necessary to maintain the average prices of the Government sales.

As the old stocks of salt manufactured at the Government agencies were exhausted in 1873-74, and the quantity of salt manufactured in the 24-Pergunnahs under the excise rules is very small, the consumption in the whole of Bengal, with the exception of the Orissa Province, may be said to be now supplied by imported salt. These importations have, of course, greatly increased since the cessation of the Government manufacture.

The following are the descriptions of salt now commonly imported, the bulk of the importations being from Liverpool :—

Manufactured by Solar Evaporation.		Manufactured by Boiling.
French Kurkutch.	Bombay Kurkutch.	Liverpool Pungah.
Ceylon ditto.	Kurrachee ditto.	Rock Salt.
Jeddah ditto.	Madras ditto.	Muscat Rock.
Muscat ditto.	Covelong ditto.	Bombay Sea Salt.

The duty levied on salt is now Rs. 2. Since 1837 the rate of duty has been frequently changed. The duties have been as follow: From 1837 to 1844 at the rate of Rs. 3-4-0 per maund. In October 1844 this rate was reduced to Rs. 3, in April 1847 to Rs. 2-12-0, and in April 1849 to Rs. 2-8-0. In December 1859 the duty was again raised to Rs. 3, and in March 1861 to Rs. 3-4-0. In January 1878 the rate was again reduced to Rs. 3-2-0, in August 1878 to Rs. 2-14-0, and in March 1882 to Rs. 2, the rate now levied.

Conventions with the French Government in the matter of salt.

In 1815 a convention was made with the French Government, under the terms of which the East India Company agreed to supply sufficient salt for the consumption of the French Settlement of Chandernagore at prime cost from the Orissa and Midnapore agencies.

The quantities of salt thus supplied free of duty varied from maunds 4,000 to 12,000 per annum.

This arrangement held good until the year 1839, when the Company entered into an engagement to pay annually a sum of Rs. 20,000 to the French Government on their agreeing to buy their salt in the open market at the same price paid for it by other inhabitants of Bengal: this payment is still continued.

NOTE.—The years 1854-55 to 1863-64 are Salt years (from 1st October to 30th September), and those from 1864-65 to 1882-83 are Official years.

(*a*) These figures do not include any salt afloat, which cannot be considered as available stock.

(*b*) Exclusive of salt on shipboard at Chittagong.

(*c*) Exclusive of maunds 121,733, 97,559, 57,491, 131,753. 124,175, 141,117, 39,258, 84,410, 99,035, 120,649, 230,171, and 201,498 respectively, in the Aurungs.

Account No. 4.

(a) These figures represent the quantities sold from shipboard and bond, *plus* the quantity delivered from shipboard for bond, and not the manifested quantities as heretofore.
(b) Exclusive of 21 maunds received from shipboard for bond in Sulkea private Golahs.
(c) Exclusive of maunds 46 and 25 received from shipboard and maunds 448 and 112 found in excess in Sulkea Golahs.
(d) Exclusive of maunds 29 found in excess.

MADRAS PRESIDENCY.

According to the prevailing system which was established in 1805, salt is made in the Coast Districts by private manufacturers, who occasionally receive advances from the Government, and who are restrained from selling the produce to any but the Government. The salt is re-sold by Government for a sum reckoned to include the price paid to the manufacturers, and the expenses of storage, transport, &c. (reduced to an average rate for all the districts), plus the duty. The salt revenue in the following tables is, therefore, the gross receipt, inclusive of the cost of manufacture. In the earlier years the average of this cost was assumed at two, but by Act XVIII of 1877 it was fixed at three annas a maund, the rate now levied.

2. In the Eastern Maritime Districts these arrangements still prevail without modification. In Malabar no salt is manufactured. The district is supplied by imports from Bombay, &c. These imports were formerly made by Government, but Government has withdrawn from the Trade since 1877, and now only charges import duty. In South Canara salt is manufactured locally under the Excise System, which was substituted for the Monopoly System in 1877. The manufacture and sale are entirely on private account, subject only to the payment of duty on removal from store. This supply is insufficient for the consumption of the district: the deficiency is supplied by the importations from the Bombay Presidency and other places, as in Malabar. When these importations were made by the Government, or down to 1877-78 inclusive, the imported salt was sold at a price equal to the Madras duty (*i. e.*, the general gross selling price, less 3 annas a maund), plus the supposed cost of the salt. Private imports on payment of duty were also permitted, but the Trade was almost *nil* until of recent years, the cost of salt sold by Government having been improperly fixed so low as to forbid competition. Since Government ceased to import, the Trade has greatly increased.

MADRAS PRESIDENCY—*continued.*

3. Certain quantities of salt are annually supplied to the French Settlements in the Madras Presidency under an old convention with the French Government, at cost price. These are included in the following statistics, excepting in the first two returns. A further quantity, generally less than one thousand maunds annually, used to be supplied at prime cost from the Canara District for the Amindivi Islands. This is excluded from the first two returns, and included in the last two.

4. When salt was purchased by the heap of 1,200 maunds without measurement, a discount of 5 per cent. on the general selling price was allowed until 1877-78. This has been allowed for in the quantities shown in the following tables from 1865-66. In a few instances a larger discount has been allowed to wholesale purchasers, in order to clear out stores in remote parts of a district, or for other special reasons, such as the clearances of old salt in the Kistna District, which had been injured in the cyclone of 1864. This also is excluded from the above date. No information is available as to the inclusion or exclusion of discount before 1865-66.

5. The whole of Mysore and the greater part of the Nizam's territory, and of the southern and eastern parts of the Central Provinces are supplied with Madras salt; but in these returns these supplies are not distinguished from the sales for consumption within the Madras Presidency.

6. North Canara was detached from the Madras Presidency, and annexed to the Bombay Presidency, in 1862-63. The sales in that district are distinguished from the remaining sales of the Presidency in the following tables:—

7. The *general* selling price of salt in the Madras Presidency has been as follows, *viz.*,—

9⅓	annas a maund of 82⅔lbs.	from 1805	to November 1809.
14	,, ,,	from November 1809	to a date in 1820.
9⅓	,, ,,	from 1820	to June 1828.
14	,, ,,	from June 1828	to 31st March 1844.
1 Rupee 8 annas	a maund, reduced in the same year to 1 Rupee a maund,	from April 1844	to July 1859.
1 ,, 2 ,,	,,	from August 1859	to 2nd April 1861.
1 ,, 6 ,,	,,	from 3rd April	to 3rd June 1861.
1 ,, 8 ,,	,,	from 24th June 1861	to a date in 1865-66.
1 ,, 11 ,,	,,	from a date in 1865-66	to October 1869.
2 Rupees	,,	from October 1869	to 27th December 1877.
2 ,, 11 ,,	,,	from 28th December 1877	to 9th March 1882.
2 ,, 3 ,,	,,	from 10th March 1882	to date.

These rates are inclusive, as observed in paragraph 1, of a cost price of two annas, or latterly of three annas, per maund, and were formerly abated by 5 per cent. for purchase, without measurement, of a heap of 1,200 maunds.

NOTE.—The quantity of total sales from 1873-74 is exclusive of 5 per cent. wastage allowed on wholesale transactions, whereas that for previous years is inclusive of it.

(*a*) Includes collections on account of Earth Salt manufacture in the Ceded Districts and Kurnool, where it was permitted up to January 1879. The charges from Fusli 1284 also include the compensation paid for *closing* the Earth Salt, Madras.

(*b*) Excludes imports (free and dutiable) but includes salt supplied for fish-curing and for French Government, and that sold for export, also excise salt on which duty has been levied.

(*c*) Includes import duty and miscellaneous receipts.

(*d*) Vide remarks marked (*a*) under Account No. 6.

(*e*) „ „ „ (*b*) „ „ „ „

NOTE.—The quantity shown under Home and Inland consumption from the year 1873-74 is exclusive of 5 per cent. wastage allowed on wholesale transactions, whereas the figures for the previous years include it. The quantity given from the year 1822-23 to 1873-74 is inclusive of salt supplied to Amindivi Islands.

a Includes maunds 790, 1,009, 929, and 728, respectively, supplied to Amindivi Islands.

* This total differs from the "Total of Sales" in the previous Account only by the quantity of salt in the column for "Wastage."

† Exclusive of salt imported on private account, but includes salt manufactured under the Excise System.

BOMBAY PRESIDENCY, EXCLUSIVE OF SINDH.

The salt produced in the Bombay Presidency is partially exported beyond the Presidency by land to Malwa, the Central Provinces, the North-Western Provinces, and the Nizam's territories, and by sea to British and Foreign Malabar in the Madras Presidency, and to Calcutta and the Straits Settlements. The exports by land pay the full excise duty; those by sea may, at the option of the exporter, be made after payment of duty or free under bond, but in the latter case a nominal charge, to cover cost of establishments at the salt pans, is levied at three pies or a quarter of an anna a maund. The exports to Calcutta paid full excise duty down to the year 1864: from then until 1874 they were free of duty, being subject, like the imports of Bombay salt into the Madras Presidency, to the full customs duty (which is the same as the local excise duty) at the port of import. In 1874 pre-payment of duty was insisted on before removal of salt from any works in the Bombay Presidency. In 1876 the former system was reverted to in the case of export to Travancore and Cochin, and in 1880 exports by sea were again allowed to be made free, on execution of a bond, to Calcutta and certain ports in the Madras Presidency.

Mr. Plowden remarks in his report on salt in British India, that "it was not until the 15th December 1837 that salt was erected, by Act No. XXVII of that year, into a source of considerable revenue in the Presidency of Bombay: prior to that date it was one of many miscellaneous items as under the Native Government."

Under Act XXVII of 1837 the manufacture of salt in the Bombay Presidency was placed under restriction, and the produce, in common with the importations of salt by sea and land, was subjected to a duty of eight annas a maund. The object of the duty was to compensate partially the loss to the general revenue from the abolition of inland transit duties. In 1844, to set off a further loss of revenue from the abolition of the *moturpha*, or tax on trades and professions, the duty was raised from 1st September to one rupee a maund, but immediately after it was reduced in the same month, with effect from the same date, to twelve annas a maund, at which rate it continued until August 1859, when it was raised to one rupee a maund, and was again raised on 20th January 1865 to one rupee and eight annas a maund. By Act XXIV of 1869 the duty was raised to one rupee thirteen annas a maund, and by Act XVIII of 1877 to two rupees and eight annas a maund. By the Notification of Government, dated 10th March 1882, the duty was reduced to rupees two a maund.

The system in the Bombay Presidency is that of licensing the manufacture at places approved of by the officers of revenue, watching production and store, and not allowing removal from the manufacturers' store except upon payment of the prescribed duty. Certain Native States and Chiefs, however, are allowed a certain annual supply of salt free, or at reduced rates of duty, from the Ahmedabad Collectorate in the Northern Division.

In the same division a reduced rate of revenue was obtained from the produce of the salt-works of the Nawab of Cambay, under an arrangement which is thus explained in Mr. Plowden's report: "The city and port of Cambay, with the adjacent district, is foreign territory, in the revenues of which the British Government is interested, having succeeded to the Mahratta *chowth*, or tribute. His Excellency the Nawab of Cambay, on the introduction of the salt excise, refused to make any alteration in the rates levied at his salt pans. The Bombay Government thereupon placed a line of frontier chowkeys, which prevented the ingress of country salt into the British territories; but a considerable quantity continued to be carried into the territories of the Gaekwar, and after some negotiation the Nawab agreed to levy the Bombay rate of excise if he might appropriate one-half. This was acceded to as, on the whole, an advantageous compromise. Under this arrangement the Bombay Government was entitled" (full duty, at the date of Mr. Plowden's report having been twelve annas a maund) "to an excise duty of six annas per Indian maund on all the salt produced at works in Cambay; but the Nawab established a claim to an additional *huck*, or due, amounting to three-fourths of a pie per maund, by which the share of the Bombay Govern-

BOMBAY PRESIDENCY, &c. —*continued.*

ment, in the excise duty of twelve annas, was reduced from six annas to five annas eleven and a quarter pie, the rate now received." The full duty per Indian maund and the shares thereof were as follow :—

	Rs.	A.	P.
Share of British Government	1	3	11¼
„ of Nawab of Cambay	1	4	0¾
TOTAL ...	2	8	0

Thus the Nawab's *luck* had risen from ¾ or ⅚ pie to ¾ pie a maund.

The Cambay salt-works were, by agreement with the Nawab, finally closed in 1878.

Account No. 10.

RATE of DUTY on SALT, PROCEEDS REALISED, CHARGES of COLLECTION, NET SALT REVENUE and QUANTITY of SALT which paid FULL DUTY, in each year from 1842-43 to 1882-83, distinguishing the QUANTITY of SALT of LOCAL PRODUCE delivered for HOME and INLAND CONSUMPTION from that IMPORTED by LAND or SEA, and shewing also the QUANTITY EXPORTED by SEA to places beyond the BOMBAY PRESIDENCY.

* It includes maunds 37 exported to Hyderabad, which is not shown in Account No. 17 under local produce, but it does not include maunds 865, which is shown under local produce in Account No. 17.

† No salt was manufactured in the province of Sindh except at Moach and Sarun salt deposits.

NORTHERN INDIA.

The revenue was formerly collected through the agency of the Inland Customs Line, which was formed in 1843-44 and was extended at various times, until it reached from Torbeila near Attock, on the Indus in the Punjab, to the Mahanuddy in the Sumbulpore District of the Central Provinces. It was 2,472 miles in length, and was manned by 10,496 officers and men. In consequence of the development of railway communication, 764 miles of this line were abolished in the Central Provinces in 1874-75, and eventually in 1878-79 the whole line from Leia in the Mooltan Division in the Punjab to the Central Provinces was removed; there remain only 325 miles from Leia to Torbeila on the Indus maintained for the purpose of preventing the low-taxed Kohat salt from crossing into the Punjab.

Irrespective of this line, in February 1870 the Inland Customs Department assumed charge of the Sambhar Lake belonging conjointly to the States of Jaipur and Jodhpur, and in October 1878 they received charge of the salt sources at Pachbudra, Didwana, Phalodi and Luni from the Jodhpur State.

In addition to the above, the salt works at Sultanpur and Nuh in the Delhi Division are worked under the supervision of the Inland Customs Department. There is also the charge of the salt mines in the salt range in the Punjab, and a force designated the Internal Branch existing in Oudh, the North-West Provinces and the Province of Behar in Bengal, for supervising the saltpetre trade, levying the duty on salt educed therefrom, and for the control of the manufacture of other saline substances, such as sulphate of soda, carbonate of soda, &c., administered by the above-mentioned Department.

The whole Inland Customs Department (now become simply the Department of Salt Revenue in Northern India), is administered by the Commissioner of Northern India Salt Revenue, formerly responsible to the respective Local Governments and Administrations within whose jurisdictions the customs organization was established, but who is now immediately under the Government of India.

The duties levied on the customs line were on salt imported and sugar exported.

The general rates on sugar were as follow :—

	PER MAUND.	
	On Refined Sugar.	*On Unrefined Sugar.*
From 1843-44 to 1859-60	... 8 annas	3 annas.
For 1860-61	... 8 annas and 1 Re.	3 annas and 6 annas
From 1861-62 to 1877-78	... 1 rupee	6 annas.
From 1878	... Abolished.	

NORTHERN INDIA —*continued.*

The general rates of duty on salt were as follow :—

	Per Maund.
	On Rajpootana Salts.
From 1843-44 to 1845-46	... Re. 1-8 and Rs. 2
From 1846-47 to end of 1859	... Rs. 2
From beginning of 1860 to March 1861	... Rs. 2-8
From March 1861 to end of December 1877	... Rs. 3
From January 1878 to July 1878	... Rs. 2-12
From July 1878 to 9th March 1882	... Rs. 2-8
From 10th March 1882 to date	... Rs. 2

with the following exceptions, *viz.*, in the Sirsa Division of the Punjab Section, the duty was 8 annas per maund for a part of 1843-44, when it was raised to Re. 1 per maund, at which figure it remained until 1846-47, when the duty was equalised with that generally levied. In the Saugor Division of the Central Provinces Section a rate of Re. 1-8 per maund prevailed from the formation of the division in 1855-56 till the introduction of the general rate in 1859-60. In the Hoshungabad Division, also formed in 1855-56, Re. 1 per maund was levied until a date in 1859-60, and thereafter Re. 1-8 until the general rate was introduced in 1860-61.

The duty on Madras salts entering the Central Provinces was levied from the outset, until the abolition of the portion of the line across which it passed at Re. 1-8 per maund.

Bombay salt entering the Central Provinces paid from the outset at the rate of Re. 1-8 per maund until 1st May 1874, when a mileage rate was introduced on all salt travelling by rail from Bombay, the object of the differential rate being to level up the duty to a uniform rate by the time it reached Jubbulpore, where it came in contact with Northern India salt paying Rs. 3 duty.

This mileage rate was abolished in 1878, when the salt duty was made uniform throughout India (except in Bengal and British Burma).

In addition to the above, all salt excavated in the Sindh, Saugor, Doab and the Kalabagh Mines was subject to duty as follows :—

	Per Maund.
From 1849-50 to April 1860	... Rs. 2
From April 1860 to September 1861	... Rs. 2-2
From September 1861 to December 1877	... Rs. 3
From January 1878 to July 1878	... Rs. 2-12
From July 1878 to March 1882	... Rs. 2-8

Salt excavated at the Kohat Mines on the frontier of Afghanistan was subject to a duty of 4 annas, 3 annas and 2 annas per maund. A uniform rate of 8 annas per Lahori maund at all the mines has been introduced with effect from the 7th July 1883.

Salt educed in the process of manufacturing saltpetre has always been subject to the duty prevailing in Northern India.

OPIUM.

EXPLANATORY MEMORANDUM.

BENGAL OPIUM.

In British India the manufacture of opium for export to the Straits Settlements and China is restricted to two Agencies in Behar and Benares in the Bengal Presidency. These are under the administration of the Government of Bengal, though the so-called Benares Agency includes sub-divisions which are partly situated in Oudh, and is established in territory under the Government of the North-Western Provinces and Oudh.

The cultivation of the poppy and the manufacture of opium in these two Agencies are regulated by Act XIII of 1857, under the general control of the Government of Bengal and the Board of Revenue, and the immediate supervision of the Opium Agents in charge of the Agencies. The possession, transport, import and export of opium are regulated by the provisions of the Rules passed under section 5 of the Opium Act of 1878.

The Collectors of Land Revenue in the districts within the range of the Agencies are Deputy Agents for the enforcement of some of the provisions of Act XIII of 1857, but they do not otherwise take part in the details of supervision, which are conducted by Sub-Deputy Opium Agents acting under the orders of the Opium Agents.

The extent of cultivation and the quantity of opium to be annually brought forward for sale are regulated by the Government of India in communication with the Government of Bengal, while the limits of cultivation within each sub-division, and the persons by whom the poppy may be cultivated, are arranged annually by the Opium Department. The cultivators, though free to decline the cultivation, are restrained from selling their produce to any but the Opium Department.

The produce is purchased, in the form of crude opium, at a price per seer of a standard consistence of 70 degrees, which is fixed from time to time by the Government of India, any change in the price being notified to the cultivators at the time of their entering into their annual engagements with the Department.

Settlements are made with the cultivators or their accredited agents at the end of July or early in August when the license to cultivate is granted by the Sub-Deputy Agent or his Assistant, and after the details are settled, an advance is paid to the lumbardar by the gomashta in their presence.

The number of advances made during the year in the Behar Agency are not to exceed five as follow:—

1st.—In September, at a rate not exceeding Rs. 5 per beegah excepting when the Agent permits a higher rate.

2nd.—At the end of December or beginning of January;—after the crop is above ground, and when the prospects are favourable, at a rate not exceeding Rs. 4 per beegah, including any advance for poppy leaves.

3rd.—At the latter end of March;—after the chief part of the crop has been gathered, and the *taidad* or estimate of the probable outturn of the season has been completed, at a rate not exceeding Rs. 8 per beegah.

4th.—At the time of weighment;—the rate of advance being regulated by the quality of the drug delivered and at the rates specified at foot.*

5th.—On obtaining from the Agent the godown receipts.

The number of advances during the year in the Benares Agency are not to exceed four as follow:—

1st.—In September;—at the rate of Rs. 4 per beegah, a higher rate being granted to parties living at a long distance to obviate the necessity of a second journey to receive the second advance.

2nd.—In January or February;—after the crop is above ground and the prospects are favourable, at the same rate as the first.

3rd.—At the time of weighment;—according to the quality of the drug and at the rates specified at foot.*

4th.—On obtaining from the Agent the godown receipts.

The different rates of advances are not to be exceeded except with the permission of the Agent.

By the end of July the manufacture is finished, but the airing and drying are continued till October, by which time the balls are ready for packing; forty balls are allotted to each chest of provision opium.

The manufactured opium is classed as provision opium for export to China, and abkaree or excise opium for consumption in the country. The provision opium is brought down to Calcutta, where it is sold by auction to the highest bidder. By a convention with the French Government, dated 7th March 1815, the authorities at Chandernagore are entitled to demand a quantity not exceeding in the aggregate 300 chests in each year, the price of the quantity claimed at any one of the periodical sales during the year being determined by the average price at which the rest of the opium is sold at such sale, and the requisition for such opium being "addressed to the Governor General at Calcutta within thirty days after notice of the intended sales shall have been published in the *Government Gazette.*"

The French Government having proposed to commute for a period of five years their opium rights for a money payment, it was agreed by a Convention executed between the Government of India and the French authorities at Chandernagore on the 16th July 1884 to fix the annual commutation payment at Rs. 3,000. The payment will be made in moieties at the end of every six months, counting from the 1st January 1884.

The year's provision is not sold at once. Originally there were five sales in a year, then nine, but since 1848 they have been monthly. Of late years, to check speculation, the quantity to be sold in any calendar year was, if the outturn was sufficient, notified in the previous year, and as a further means of steadying prices it was determined to accumulate a sufficient reserve for supplying a deficiency of outturn in bad seasons. The following figures show the reserve stock of provision opium on the 31st December—

	Behar chests.	Benares chests.	Total chests.
1876	8,130	7,134	15,264

and for other sorts proportionately.

OPIUM.

BENGAL OPIUM—*continued.*

The abkaree or excise opium manufactured in the two Agencies is supplied at Rs. 7-4 a seer to the Governments of Bengal and the North-Western Provinces, and the Administrations of British Burmah, Assam and Central Provinces who permit its sale within their respective jurisdictions in accordance with rules framed under the Opium Act I of 1878. Excise opium is issued to licensed dealers from the different District Treasuries in quantities of not less than one seer at a time, and at prices which are fixed by the local Governments at their discretion, but never so low as to encourage the exportation of abkaree opium to China in preference to provision opium.

The consistence of the manufactured opium differs in the two Agencies. The moisture in 100 grains of crude opium being thoroughly evaporated, the residue is weighed, each grain after drying being taken at 1°. If the cultivator delivers his drug of standard consistence, he receives for it the regulated price, otherwise, a *pro rata* increase or deduction is made according as the drug is above or below standard.

The gross and net weight of a chest of opium, and the consistence of provision and abkaree opium are as follow:—

	Consistence.	Gross weight of chest.		Net weight or quantity of opium in each chest.			Weight or quantity of fine opium in each chest.	One chest of excise opium equal to	
		Mds.	Srs.	Mds.	Srs.	Chs.	Srs.

* It is assumed that the consistence of Malwa Opium exported from Bombay is about 90 to 95 per cent. At the lower of these two consistencies a chest of Malwa contains 126 to 128 lbs. pure Opium. The duty on Malwa Opium is levied without reference to quality or consistence.

MALWA OPIUM.

The revenue derived from the trade in opium known as 'Malwa opium,' which is produced in Central India and parts of Rajpootana, consists chiefly of the duty charged for passes granted at the scales to cover the transit of the opium through the British territories to Bombay for exportation thence to China, or for consumption in India. The export is now regulated by rules framed under the Opium Act I of 1878. The Act and the Rules framed under sections 5 and 13 thereof were introduced into the Bombay Presidency on the 1st April 1878. Previous to the year 1831, the British Government reserved to itself a monopoly* of Malwa Opium, which was purchased by the British Resident at Indore, and sold by auction, either at Bombay or at Calcutta. But in that year it was deemed advisable, chiefly on account of the large quantity of opium smuggled to the Portuguese Settlements of Damaun, &c., on the Coast, to relinquish the monopoly, to open the trade to the operations of private enterprise, and to substitute, as a source of revenue, in place of the abandoned system, the grant, at a specified rate, of passes to cover the transit of opium through the Company's territories to Bombay. In determining the amount of transit duty, it was proposed to be guided by a comparison of the cost of transit direct to Bombay with that of the transmission of the drug to the Coast by the cheapest of the more circuitous routes through the territories of Native States; and on the basis of such a comparison, it was fixed at Rs. 175 per chest of 140lb. each. In 1835, the results of the preceding official year having been unfavourable, and the shipments of opium from Bombay having largely declined, while those from Damaun had greatly increased, the rate was reduced to Rs. 125 per chest.

* By separate treaties with the Native Princes of Central India, which were subsequently cancelled.

The subjugation of Sindh facilitated the levy of a higher rate. Until that conquest, a large portion of the opium of Malwa had been conveyed through Sindh to Kurrachee, and thence onwards to the Portuguese ports of Diu and Damaun. That route being now closed, it was reasonably expected that an advance might be made in the charge for passes, without risk of loss to the revenue from a diminished demand for them. The rate was accordingly increased in October 1843 from Rs. 125 to Rs. 200 per chest. Upon the principle that the duty should be fixed at the highest amount which could be levied without forcing the trade into other channels, a further increase was made in 1845, when it was determined that the charge should be Rs. 300 per chest. For the same reason it was on 1st June 1847 raised to Rs. 400 per chest, and subsequently as follows, *viz.*:—

	Rs.
1st July 1859	500
1st September 1860	600
1st October 1861	700
1st „ 1862	600
16th July 1877	650
15th September 1879	700
28th June 1882	675, if weighed at Ajmere for export by sea from Bombay. 650, if weighed elsewhere for export by sea from Bombay.

OPIUM.

MALWA OPIUM —*concluded.*

Opium imported into Bombay for the declared purpose of export to China may, on arrival, be sold for home consumption.

The pass duty on opium consumed in India is at present Rs. 725 per chest if weighed at Ajmere, and Rs. 700 if weighed elsewhere. The pass duty on all opium consumed in India is credited to Provincial Revenue, and that on opium exported to China to Imperial Revenue.

The poppy is sown in Malwa in November; the plants are in flower in the beginning of February, and by the end of March the whole of the opium is collected by the cultivators and ready for sale. The village bankers, who get possession of the raw opium, retain it till the end of April, and during May and June it is bought by the large dealers who make it up into cakes of 12 ounces each, and expose it in store-houses to dry for the next two months after which it is ready for the scales.

Generally, the opium is ready for export in September; but, as considerable dryage takes place in its transport to Bombay while new, it is usually kept till October, unless an expected increase of duty, or pecuniary difficulties of the dealers compel the owners to bring the drug earlier to the scales. Before September 1866, chests were sent to Bombay from Indore *vid* Maunpore, Scindwa and Manmad, the transit occupying 20 days on an average. In that month a new route was adopted *vid* Simrol and Burwari to the Great Indian Peninsula Railway at Khandwa, which reduced the time of transit to 8 days. The only authorised routes by which opium can now be imported by land into Bombay (after leaving the scales) are (*a*) by the Holkar State Railway *vid* Khandwa and (*b*) by the Pálanpur-Ahmedabad State Railway to Ahmedabad

Passports have been granted since January 1858 at Ahmedabad where the scales are superintended by an officer of the Opium Department, Bombay, and since February 1877 at Ajmir. The Ajmir scales were made use of for the first time in November 1877.

A chest of Malwa opium contains 140lb. net weight, to which an allowance of 4oz. is added for leaf and dust, making a total of 140¼lb.

The rules in force at the Malwa Agency (and the same are applicable at Ahmedabad and Ajmir) for the weighment of opium and the grant of passports are as follow:—

The opium, ready packed in half chests (for convenience of carriage), is brought to the Government godown by the merchants or brokers, who tender for the duty hundis bearing interest at 5 per cent. per annum, drawn on some trustworthy firm in Bombay and payable at six days' sight to the General Treasury at the Bank of Bombay. These, on being approved, registered, and numbered, are forwarded with the register to the Accountant-General, Bombay. At the Ahmedabad Agency the duty (Rs. 650) may be paid in cash or by hundi, payable at sight at the Bank of Bombay and at the Ajmir Agency also in cash or by hundi drawn on some trustworthy firm in Bombay and payable at sight. The Government duty on opium weighed at Ajmir for export by sea from Bombay is at present Rs. 675 per chest containing 140¼ lbs. net weight, including leaf and dust. The duty on opium weighed at Ajmir was raised from Rs. 625 per chest to Rs. 675 on the 16th July 1877, and to Rs. 725 on the 15th September 1879, and again reduced to Rs. 675 per chest from 28th June 1882.

The hundis tendered having been approved of, on the receipt of the hundis, the half chests are arranged in the godown, and numbered consecutively in English.

Merchants provide and pay for porters, carpenters, and men for screwing up the chests opened for weighment.

On arrival of the officer who makes the weighment, he selects at hazard two half chests out of every ten of each consignment brought to the scales, from which an average is struck; when the average falls short of the allowance by Government, *viz.*, 70 lbs. 2 oz. per half chest, the deficiency is allowed to be made good; when it is in excess, the number of pounds in excess is withdrawn. This is called net weighment.

When the net weighment is completed, the boxes are nailed up and re-packed, and the gross weighments are proceeded with—that is, the chests, as ready for conveyance, are weighed and marked in English. Full particulars are then entered in the passport granted for each weighment. The gross weight exceeds the net by about 50 lbs. in each half chest.

To prevent molestation on the road, a vernacular pass is granted to the person appointed by the merchant to accompany the despatch, in which the particulars of the consignment are inserted, and a weekly register of the passports is sent to the Commissioner of Customs, Opium and Abkari, Bombay. The passport is valid for two years from the date of its issue.

The guards necessary for the escort of the consignments are supplied or paid for by the merchants or insurers. Advice of each despatch is forwarded to the Commissioner of Customs, &c., Bombay, the day after it occurs.

There are seven subordinate offices attached to the Malwa Agency (Indore),—Ojein, Rutlam, Dhar, Udaipur, Jeara, Mandesor and Bhopal, the officers in charge of which forward their hundis to the head office, and in return receive passports bearing the head office registered number.

At Bombay the process observed with the pass fees levied on opium is as follows:—

The Malwa-Ahmedabad or Ajmir Agent, as the case may be, grants the pass, receives a hundi in payment of the pass fee, and hands it on to the Accountant-General.

The Accountant-General sends the hundi to the General Treasury to be realised, and informs the Commissioner of Customs that he has done so. The Commissioner of Customs at once records it as a debt due by him, and takes care that the amount is recovered.

The treasury receives the amount of the hundi, and informs the Commissioner of Customs to that effect.

The Commissioner of Customs, on the arrival of opium at Bombay, receives it, and as a check against smuggling on the way, sees that the chest corresponds with the pass, that the weighment also corresponds, less a certain amount of dryage, and that the pass fees have been duly recovered. If the pass fees have not been paid, he seizes the opium and recovers the amount of the hundi and the interest thereon. Before the export of the opium to China from Bombay, the Commissioner of Customs weighs it, examines the pass under which it was imported, and checks off therefrom the quantity to be exported.

Account No. 28.

TOTAL RECEIPTS and CHARGES on account of OPIUM in BENGAL and the BOMBAY PRESIDENCY respectively, and the NET REVENUE in each year from 1834-35 to 1882-83.

* There not being any record of the actual number of chests exported from Bombay during the years 1830-31 to 1835-36 and in 1845-46, the number of chests for those years has been calculated from the amount of pass-duty collected in each year.

† In the years so marked, calculations similar to the above are not practicable, two rates of duty having existed, while the actual number of chests is not upon record.

For all the other years the actual number of chests exported is shown.

Account No. 29 —*concluded.*

* In the years so marked, calculations similar to the above are not practicable, two rates of duty having existed, while the actual number of chests is not upon record.

For all the other years the actual number of chests exported is shown.

The Ahmedabad Agency was established in January 1858, previous to which period passes were granted at Indore only.

The Ajmir Agency was established in February 1877, but the sales were made use of for the first time in November 1877.

Account No. 31—*continued.*

NUMBER of CHESTS sold and AMOUNTS realised by sale of BEHAR and BENARES OPIUM in each year from 1829-30 to 1883-84; also the AVERAGE ANNUAL PRICE deduced from the realisation—continued.

MONEY.—1 Tael = 10 Mace = 100 Candareens = 1,000 Cash. These moneys are formed by weights under the same denomination of Sycee silver, the cash being also represented by cast pieces of coarse metal.

The value of the Tael, as being pure, and as weighing 1⅓ oz. Avoirdupois, or 583⅓ grains Troy, would, at 60*d.* per ounce standard, be worth 78⅛*d.* sterling; but as it averages only about 98 touch, or 980 fine, a little above 13 dwts. better than standard, its value is 77⅛*d.*, to which may be added 1⅛*d.* for the worth of the gold which it contains, and which makes the full value 78¼*d.* sterling.

Accounts are kept by foreign merchants trading with China in Dollars, each of 100 cents. This mercantile currency is valued at the nominal rate of 720 Taels for 1,000 Dollars, with a variable percentage for the reduction into Sycee silver.

The contents in pure silver of a Spanish Dollar are, say, 370·9 grains; the contents in pure silver of a Dollar's *weight* of *Duty, Sycee* are, say, 409·75 grains. The Sycee is therefore at its intrinsic par when it sells at about 10½ per cent. premium, as paid for Spanish Dollars.

No. 45 —*concluded.*

SHANGHAI, in DOLLARS, TAELS, and RUPEES respectively, with the RATES of EXCHANGE at those places on Government Sales in each month, from January 1860 to December 1883 —concluded.

100 Spanish Dollars are equal to Government Rs. 226-15-10·08 at the intrinsic par; or Rs. 2·2699 = one Dollar, after deducting 2 per cent. for seignorage. One Tael intrinsic = Rs. 3·1627. One Dollar intrinsic = Taels 0·7177.

Weights.—1 Peeul = 100 Catties = 1,600 Taels.
1 Peeul = 133⅓ lbs. Avoirdupois.
1 Catty = 1⅓ lbs. ditto.
1 Tael = 1⅓ oz. ditto. or 583¼ grains Troy.
82⅔ lbs. = 1 Bengal Maund.
6·6 Mow = 1 Acre.
·15 of an Acre = 1 Mow.
4·16 Mow = an Opium Beegah.

NOTE.—The figures in this return show the gross circulation, less the Notes of several Circles in the Bengal Presidency which may have been cashed in other Circles in the same Presidency. From March 1862 to April 1864, there was but one (the Calcutta) Circle in the Bengal Presidency. For the figures for that period, see Account No. 122. Where the Notes in circulation belonging to a Circle in the interior are less than its Silver Coin Reserve, the difference arises from the Notes cashed at the Head Office.

* This figure has been arrived at after deducting £8,013 shown in the original return under "Remittance between Circles."

† Of these amounts, notes to the value of £164,581, 340,816 and 25,356 respectively were held by the Reserve Treasury.

Account No. 124] PAPER CURRENCY.

Account

NOTE.—The figures in this return show the gross circulation, less the Notes of the several Circles in the Bombay Presidency which may have been cashed in other Circles in the same Presidency. From March 1862 to August 1864 there was but one (the Bombay) Circle in the Bombay Presidency. For the figures for that period, see Account No. 122. The Nágpore Circle was attached to the Bengal Presidency up to July 1867, and its circulation up to that month is included in the totals for the Bengal Presidency, which are given in the Abstract of the Circulation of the Paper Currency in Account No. 124, although for convenience of arrangement the circulation of the Nágpore Circle is shown from September 1864 in this return.

Account No. 124] PAPER CURRENCY.

NOTE.—The figures in this return show the gross circulation, less the Notes of the several Circles in the Madras Presidency which may have been cashed in other Circles in the same Presidency. From March 1862 to December 1864 there was but one (the Madras) Circle in the Madras Presidency. For the figures for that period, see Account No. 122.

Account No. 125] PAPER CURRENCY.

NOTE.—The figures in this return show the gross circulation, less the Notes of the several Circles in the Madras Presidency, which may have been cashed in other Circles in the same Presidency. From March 1862 to December 1864 there was but one (the Madras) Circle in the Madras Presidency. For the figures for that period, see Account No 122.

MINT AND COINAGE.

MEMORANDUM OF PARTICULARS RELATING TO GOVERNMENT COINS.

SILVER.

On 31st August 1835, the only Rupees of legal tender in British India, within local limits specified in the several Regulations prescribing the coinage, were the Sicca, Furruckabad, and Sonat Rupees, and the Bombay and Madras Rupees.

Act XVII of 1835, which took effect on 1st September 1835, directed the coinage of a Company's Rupee weighing 180 grains, and of a standard of eleven-twelfths, or 165 grains of pure silver, and one-twelfth, or 15 grains of alloy; and declared it equivalent to the Bombay, Madras, Furruckabad, and Sonat Rupees, and to fifteen-sixteenths of the Calcutta Sicca Rupee.

Act XIII of 1836 discontinued the Sicca Rupee as legal tender in discharge of any debt, but permitted its receipt by collectors of land revenue, and at all other public treasuries, by weight, and subject to a charge of one per cent. for re-coinage.

By Notifications dated 21st March and 12th May 1838, the Madras, Bombay, and Furruckabad Rupees, "and generally the Rupees issued from any Mint of the British Government that may still be a legal tender in any part of India," were declared to be receivable by the Calcutta Mint for re-coinage, if of full weight, at their intrinsic par, *viz.*, as equal to Company's Rupees, without any charge of seignorage for re-coinage.

All Rupees, and the Half-Rupee introduced by Act XVII of 1835, and continued by Act XIII of 1862, which are legal tender in satisfaction of all engagements, continue (unless clipped, or filed, or defaced, or diminished otherwise than by use) to be legal tender for their full weight, until by gradual wear they have lost more than two per cent. of their original weight: in this last condition the coins when tendered at a treasury should be paid for at the rate of one Rupee a tolah, and should not be re-issued.

Four-anna and two-anna pieces are legal tender for only fractions of a Rupee. If coined under Act XIII of 1862, they are allowed to pass current so long as they have lost weight only by fair abrasion; but if they have lost weight from any other cause, they are treated as bullion.

Act XXIII of 1870 repealed all the Acts referred to above. The definition of silver coins was unchanged and the quality of legal tender was reserved for coins made under the previously quoted Acts.

By Act IX of 1876 the Government Mints may coin money for Native States, such coin being identical in weight and fineness with British Indian coin. Under the Act such coin is legal tender in British India.

SILVER AND COPPER.

The full weight of the coins that were prescribed by Act XVII of 1835 and Act XI of 1844 (authorising half-pice), and that were continued by Act XIII of 1862 (which changed the designation of the Rupee from Company's to Government) and by the Indian Coinage Act XXIII of 1870, is as follows:—

	Pure Silver.	Alloy.	Weight.
LEGAL TENDER IN SATISFACTION OF ALL ENGAGEMENTS—			
Silver Coins—	Grains.	Grains.	Grains.
A Government Rupee	165	15	180
A Half-Rupee	82½	7½	90
LEGAL TENDER FOR FRACTIONS OF A RUPEE ONLY—			
Silver Coins—			
A Quarter Rupee or 4-Anna piece	41¼	3¾	45
An Eighth of a Rupee or 2-Anna piece	20⅝	1⅞	22½

	Grains Troy.
Copper Coins—	
A Double Pice, or half-anna	200
A Pice or quarter-anna	100
A Half-pice or one-eighth of an anna	50
A Pie, being one-third of a pice, or one-twelfth of an anna	33⅓

80 Rupees' worth of pice weigh 576,000 grains Troy, or 82⅜lb. Avoirdupois.

MINT AND COINAGE.

SILVER AND COPPER —*continued.*

1 Rupee = 165 grains of pure silver.

1 Shilling = 80$\frac{4}{7}$ grains of pure silver.

1 Rupee = shillings 2·0439 or 2*s.* 0$\frac{1}{2}$*d.*

Silver, at 5*s.* 6*d.* per oz. standard = for the 165 grains of pure silver in a Rupee, 2·043*s.*

or at 5*s.* 2*d.* per oz. standard = 1·92-004*s.* per Rupee.

The Company's pice, or the foregoing copper coinage, was introduced into the Bengal Presidency by Act XVII of 1835, and into the Madras and Bombay Presidencies (with retrospective effect in the latter) by Act XXII of 1844.

The title of "Government Rupee" in supersession of "Company's Rupee," was introduced by Act XIII of 1862, which rescinded further an inoperative clause of Act XVII of 1835 that had empowered the issue of a Double Rupee.

Rupees and Half Rupees not worn to the extent of 2 per cent. of their weight are, by Act XXIII of 1870, legal tender if coined under it. For coins under the previous Acts the allowance remains as laid down by them.

GOLD.

The old standard for gold coinage in Bengal was 99$\frac{1}{2}$ parts of pure gold to three-quarters of a part of alloy. This was altered by Regulation XIV of 1818 to eleven-twelfths of pure gold to one-twelfth of alloy; but the law having become inoperative, the old standard was reverted to for a time, until Act XVII of 1835 re-established the standard of eleven-twelfths fine, but declared that no gold coin should thenceforth be a legal tender of payment in India.

By Act XXIII of 1870, the under-mentioned gold coins only can be coined at a Government Mint in British India, *viz.*:—

Gold Coins.	Pure Gold.	Alloy.	Total.
	Grains.	Grains.	Grains.
A Gold Mohur or 15-rupee piece	165	15	180
Two-thirds of a Gold Mohur or a 10-rupee piece	110	10	120
One-third of a Gold Mohur or a 5-rupee piece	55	5	60

By a Notification dated 28th October 1868, Sovereigns and Half-Sovereigns coined at any authorised Royal Mint in England or Australia, of current weight, may be received in all the treasuries of British India and its Dependencies in payment of sums due to Government as the equivalent of ten rupees and four annas, and of five rupees and two annas, respectively; and whenever available at any Government treasury, they may be paid at the same rates to any person willing to receive them in payment of claims against the Government. There is no limit laid down by law as that at which gold coins are to be received, but by a Notification, dated 24th November 1869, the following rates of allowance are laid down as limits for their receipt at their nominal value in Treasuries, *viz.*:—

Allowance for the Wear of Gold Coin.	Grains.
For the Gold Mohur, Sovereign, and 10-rupee piece	774
„ Half-Sovereign and 5-rupee piece	512

Account No. 126.

Account No. 145.

TABLES SHOWING OUTTURN OF SILVER BULLION OR SPECIE REMITTANCE FROM ENGLAND TO INDIA.

EXPLANATORY REMARKS.

The calculations used in the preparation of this table are as follows :—

A.—To the cost of an ounce troy of standard silver in London, 1 per cent. is added for freight and charges for remitting, and to the total cost ¼ per cent. is added as interest for the time taken by a bullion remittance in excess of the time occupied by a remittance by bill. This sum is divided by the Mint outturn of an ounce of fine silver bullion received into the Mint after cutting, as given below, and the quotient, showing the cost of a Government Rupee in India in Pence, is entered in column A :—

	Rs.
One ounce troy of English standard silver ... ... =	2·6908
Mint duty and melting charge ... ... =	·0564
Net value	2·6344
Mint loss in cutting ... ... =	·0003
Mint net outturn	2·6341

B.—The rates in this column are based on the Mint outturn of an ounce of silver in specie, or bullion of inferior quality, received into the Mint after melting, as given below, the transit charges being 1 per cent. :—

	Rs.
Net value as above	2·6344
Mint loss in melting	·0046
Mint net outturn	2·6298

C.—The rates in this column are based on the transit charges, being 1¼ per cent., *viz.*, freight ½ per cent., insurance ½ per cent., boxes, packing, &c., ⅛ per cent., brokerage ⅛ per cent., interest at ¼ per cent., and on Mint outturn of an ounce of fine silver bullion, *viz.*, Rs. 2·6341.

D.—The rates in this column are based on the transit charges of 1¼ per cent., interest at ¼ per cent., and on Mint outturn of an ounce of silver in specie, or bullion of inferior quality, *viz.*, Rs. 2·6298.

E.—The rates in this column are calculated on the same data as in column A, except that interest is taken at ½ per cent.

F.—The rates in this column are calculated on the same data as in column B, except that interest is taken at ½ per cent.

G.—The rates in this column are calculated on the same data as in column C, except that interest is taken at ½ per cent.

H.—The rates in this column are calculated on the same data as in column D, except that interest is taken at ½ per cent.

DATA FOR CALCULATIONS.

English standard $\frac{222}{240}$th fine silver.

Indian standard $\frac{11}{12}$th ditto.

1 ounce troy = $2\frac{2}{7}$ tolas.

CHARGES IN ENGLAND.

Freight, insurance, boxes, packing, brokerage, &c., 1 to 1¼ per cent.

Interest is calculated at 6 per cent. per annum on the time taken by a bullion remittance in excess of the time occupied by a remittance by bill. This excess is from 15 days to a month, and is equal to ¼ per cent. for 15 days and ½ per cent. for 30 days.

CHARGES IN INDIA.

Mint duty = 1 per cent.

Mint melting charge = 1 per mille.

Loss in cutting in the Mint if fine silver bullion = ⅛ per mille.

Loss in melting in the Mint if silver specie or bullion of inferior quality = 1·75 per mille

Account No. 145—*continued.*

a Of these, 391 miles of wire are let to the Oudh and Rohilkhund Railway Company.
b Of these, 177 miles of wire are let to the Oudh and Rohilkhund Railway Company.
c Of these, 160 miles of wire are let to the Bombay, Baroda and Central India Railway Company.
d Of these, 528·95 miles of wire are rented to the Oudh and Rohilkhund Company, and 90 miles of wire to the Tirhoot State Railway.
e Of these, 219 miles of wire are rented to the Northern Bengal State Railway.
f Of these, 120 miles of wire are rented to the Indus Valley State Railway; 206 miles of wire to the Punjab Northern State Railway; 547 miles of wire to the Oudh and Rohilkhund Railway Company, and 5 miles to the Irrigation Department, Lower Ganges Canal.
g Of these, 182 miles of wire are rented to the B. B. & C. I. Railway Company, and 247 miles of wire are rented to the Nizam's State Railway.
h Of these, 59 miles of wire are for the Irrigation Department, Soane Canals, and 90 miles of wire rented to the Tirhoot State Railway.
i Of these, 236 miles of wire are rented to the Northern Bengal State Railway.
j Of these, 120 miles of wire are rented to the Indus Valley State Railway, and 204 miles of wire to the Punjab Northern State Railway.
k Of these, 162 miles of wire are rented to the B. B. & C. I. (Guaranteed) Railway Company, 23 miles of wire to Patree State Railway and 246 miles to the Nizam's State Railway.

No. 173—*continued.*

l Of these, 59 miles of wire are for the use of the Irrigation Department, Soane Canal Works, and 66 miles of wire for the use of the Tirhoot State Railway.

m Of these, 216 miles of wire are for the use of the Northern Bengal State Railway.

n Of these, 622 miles of wire are for the use of the Indus Valley State Railway (Northern Section), and 204 miles of wire for that of the Punjab Northern State Railway.

o Of these, 678 miles of wire are for the use of the Indus Valley State Railway (Southern Section).

p Of these, 290·75 miles of wire are for the use of the Bombay, Baroda and Central India (Guaranteed) Railway Company, 22·5 miles of wire for that of the Patree State Railway, and 246 miles of wire for that of the Nizam's State Railway.

q Of these, 326·5 miles of wire are for the use of the Rangoon and Irrawaddy State Railway.

r Of these, 162 miles of wire are for the use of the Tirhoot State Railway, 1·87 miles are for the use of the Eastern Bengal Railway Company, and 59 miles are for the Irrigation Department, Soane Canal Works.

s Of these, 216 miles of wire are for the use of the Northern Bengal State Railway.

t Of these, 206 miles of wire are for the use of the Punjab Northern State Railway.

u Of these, 1,009 miles of wire are for the use of the Indus Valley State Railway.

v Of these, 1,135·95 miles of wire are for the use of the Bombay, Baroda and Central India (Guaranteed) Railway Company, 243·6 miles of wire for the Nizam's, and 21 miles of wire for the Patree State Railway.

* Includes 313 miles for the Military Operations in Afghanistan.

* Additional charges as per Government Resolution in the *Gazette of India*, dated 6th December 1873.

† Calculated at schedule rate, the value is shown at £17,499, and £90,138, in 1879-80 and 1880-81, respectively.

Note.—The business of the Money Order Department was conducted by the Treasury Department of the Government up to the 3rd quarter of 1879-80. From the 4th quarter of the same year it was transferred to the Postal Department, which not being in a position to render the accounts in the form in which they were supplied by the Treasury Department, furnishes them under a new classification.

Account No. 178—*continued.*

* Includes Loans and Bonds in course of payment not bearing interest.

† The Indian Cash Balances for these years are stated to have been converted at 1*s.* 10½*d.* the Company's Rupee, and the rest at 2*s.* the Company's Rupee. The former, if converted at 2*s.* the Company's Rupee, will give £10,169,850, £12,846,223, and £12,876,975, respectively.

‡ From 1867-68 inclusive of Public Works Extraordinary.

§ This is chiefly a nominal decrease in England. See note (*f*) in page 320.

Account

COMPARATIVE DETAILED STATEMENT OF INCREASE and DECREASE of REGISTERED DEBT in

* Fractions of less value than ⅛ have been omitted.

† From 1858-59 to 1860-61 inclusive, the Home Treasury was open at all times for the sale of bills on India, at rates altered from time to time by advertisement: consequent on the mutiny, it was necessary to refrain from drawing on India, and the exchange was raised to a prohibitory rate.

‡ Includes £1,870,000 on account of the sale proceeds of the India Four per cent. Stocks and £2,000,000 being the advance from H. M.'s Treasury under "Indian Advance Act, 1879."

Account No. 192] DRAWINGS OF THE HOME GOVERNMENT.

The figures in this table can be carried to any degree of accuracy by continuing them as follows:—

If the last figure is 1 or 6, the continuation is 6666, &c.

„ 3 „ 8 „ 3333, &c.

„ 5 „ 0, the figure is exact.

Account No. 204—*continued.*

Exchange Tables—Rupees and Sterling—continued.

The results obtained by this table will be accurate only as far as the eighth figure. If, however, the rate of exchange is one of those marked*, perfect accuracy may be obtained if the tabular figure is continued by repeating the digits which follow the comma.

Account No. 204 —*concluded.*

Exchange Table—Rupees and Sterling —concluded.

RULE.

Write down the amount to be converted,* dividing it at the decimal point by a vertical line.

Commencing under each of its significant figures write the corresponding tabular figure.†

The sum of the tabular figures so placed is the converted amount.

If it is Sterling, the decimal point is one place before (*i. e.*, to the left of) the vertical line. If it is Rupees, it is one place after (*i. e.*, to the right of) the vertical line.

* Fractions must be expressed in decimals.
Fractions of Rupees carried to two places, and of Pounds sterling carried to three places, will give results accurate within the limit of one pie, or one farthing.

† In converting from sterling into Rupees the first of the tabular figures corresponding with the significant figure must be placed under the previous significant figure, if the tabular figure begins with 1, and the significant figure is 8 or 9.

Example 1.—Rs. 3-72 346·65 into Sterling at 1*s.* 11½*d.*

To eight figures only:		*With perfect accuracy:*	
Rs. 372346 65		Rs. 372346·65
